PEEYUSH TIWARI

AI Engineer | Python Developer | Android Developer

+91 9202261369 peeyushtiwari03@gmail.com Patna, Chhattisgarh 497331

PROFESSIONAL SUMMARY

BCA (Pre-Final Year) student at Indira Gandhi National Tribal University with hands-on experience in AI/ML, Python development, Android (Kotlin), and full-stack project delivery. Built real-world systems including an AI Face Recognition Attendance System, a Campus Emergency & Utility Android App, a Binance Futures Trading Bot, and an AI-powered Law Enforcement Intelligence Platform. Passionate about solving practical problems through intelligent automation and emerging technologies.

EDUCATION

Bachelor of Computer Applications (BCA) — Computer Science

2024 – 2027

Indira Gandhi National Tribal University (IGNTU), Amarkantak, Madhya Pradesh

Central University | Currently in 5th Semester (Pre-Final Year)

Class XII — Computer Science

2022 – 2024

Kendriya Vidyalaya | Grade: A+

EXPERIENCE

Python Developer Intern — Primetrade.ai

2025 – 2026

- Developed a fully automated Binance Futures Testnet trading bot in Python
- Implemented real-time market data streaming, order execution, and position management via Binance API
- Built risk management features including stop-loss, take-profit, and position sizing logic
- Submitted complete project with documentation on GitHub

AI Project — Face Recognition Attendance System

2024 – 2025

- Built an AI-driven attendance system using face detection and recognition with Python and OpenCV
- Implemented real-time identification to automatically mark attendance, reducing manual errors
- Ensured secure, contactless tracking with high accuracy under varied lighting conditions

KEY PROJECTS

Campus Emergency & Utility Directory — Android App

2025

- Built a full-featured campus utility app in Kotlin using MVVM architecture, Material Design 3, and Firebase
- Features include emergency contacts, campus map, event board, lost & found, and real-time notifications
- Submitted as official 4th semester BCA project with a 60-page formal project report

CrimeIQ Intelligence Platform — AI Law Enforcement Tool

2025 – 2026

- Developed a bilingual (Hindi/English) AI-powered conversational platform for law enforcement
- Integrated crime data visualization, analytics dashboard, and natural language query interface
- Built as an end-to-end prototype demonstrating agentic AI use in public safety

AI Collections System — Geldium (PowerPoint Deck)

2025

- Designed a professional 10-slide deck covering agentic AI, responsible AI guardrails, and business impact metrics

- Presented ROI projections, ethical safeguards, and KPI frameworks for an AI-driven collections pipeline

TECHNICAL SKILLS

Languages & Frameworks

▸ Python	▸ Kotlin / Android	▸ Java
▸ C / C++	▸ JavaScript	▸ SQL

AI / ML & Data

▸ Machine Learning	▸ OpenCV / Face Recognition	▸ Data Preprocessing
▸ Statistics	▸ Pandas / NumPy	▸ Binance API

Tools & Platforms

▸ Firebase	▸ Git / GitHub	▸ MVVM Architecture
▸ DBMS / SQL	▸ Computer Networks	▸ Android Studio

CERTIFICATIONS & COURSES

- IIT Bombay TrustEdge — AI Ethics & Trust (in progress)
- NPTEL / SWAYAM — Data Structures and Algorithms
- Internshala — Python & Machine Learning Trainings

LANGUAGES

English (Professional) **Hindi** (Native)
